Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,913,844 to Ziemba et al. (hereinafter “Ziemba”).

Ziemba discloses a flange attaching section having a flange supporting section 35, movable section 30, flange section 45 and flange attaching operation section 33. See Figures 1-3. It is noted that the Examiner had a difficult time ascertaining the meaning of Applicant's amendment to claim 1 on 16 December 2005. It seems that the axis formed by the flange attaching operation section 33 of the Ziemba reference “opposes” the flange supporting section. Clarification is necessary. It is also noted that in claim 2, line 5, the phrase, “releasing the pressing” seems to be a misplaced modifier. It is unclear what the phrase is modifying.

Allowable Subject Matter

2. Claim 3 is allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:
The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the syringe pump having a barrel pressing section pressing the barrel against the barrel supporting section and having a differential

section for instructing the barrel pressing section to execute the pressing after the approaching of the movable section is ended in combination with the other elements (or steps) in the claims.

Response to Arguments

4. Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent Application Publication No. 2004/0073161 is cited to further show the general state of the art with regards to syringe pumps.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
